

UTV SNOWPLOWS

When people are counting on you to clear the way, you can depend on Fisher Engineering. The FISHER® TRAILBLAZER™ line of UTV plows are professional-grade and designed for a wide variety of UTVs. Engineered to take abuse and constructed from high-strength, low-weight alloy steel, both models provide easy-on/easy-off attachment and removable receiver brackets for exceptional ground clearance. Plus, you get Scrape Lock for clean scraping and back dragging, and easy operation with the intuitive Fish-Stik® hand-held control or the glove-friendly joystick.

TRAILBLAZER UTV STRAIGHT BLADE PLOW

- Straight blade commercial plow fits most UTVs
- 6' powder coated, high-strength, reinforced-steel moldboard
- High-carbon steel cutting edge
- Full trip blade protection

TRAILBLAZER UTV V-PLOW

- V-plow efficiency designed specifically for UTVs
- 6' wide v-plow easily adapts to handle 5' sidewalks and gates in angle, scoop or V mode
- 6' powder coated, high-strength, low-weight, alloy steel moldboard
- Six vertical ribs and our proven T-frame design
- InstaLock double-acting cylinders provided standard
- High-carbon steel cutting edge
- Patented trip-edge protection

OPTIONAL ACCESSORIES

Light Bar | Deflectors | Shoe Kits | Poly Cutting Edges | Wing Extensions (V-Plow Only) | Curb Guards (Straight Blade Only)
